EDUCATION

The University of Texas at Dallas
Bachelor of Science, Software Engineering

May 2019
GPA 3.61

TECHNICAL SKILLS

Programming Languages: Java, Python, C#
Software Development Lifecycles: Agile
Databases: MySQL, MongoDB
Web: HTML, CSS, JavaScript, Bootstrap, TypeScript, React.js
Frameworks: Spring Boot, JUnit, Angular 2+, Express, Flask, ASP.NET
Visualization Tools: Microsoft Excel
Version Control Systems: Git
Source Control Management Systems: GitLab, GitHub

WORK EXPERIENCE

T-Mobile USA, Inc.

October 2020 – June 2023

Associate Engineer, Software, Frisco TX

- Developed and modified RESTFUL APIs and webpages in Spring Boot and Angular for the eCommerce side of business.
- Developed Apigee Proxies and collaborated with team to make the applications we were assigned to work on use them.
- Troubleshoot orders with the aid of Splunk, Postman, and Apigee traces.
- Assisted in deploying applications to production by providing end-to-end testing with Postman and coordinating with teams to deploy applications.
- Configured nginx configuration files to help add extra authentication

Infosys

June 2019 – July 2020

Associate, Richardson TX

- Engaged with developing RESTful APIs in Python with Flask and a web application using Angular pushing my code with GIT.
- Collaborated on web pages that would display queried data in several ways such as a bar graph

ACADEMIC PROJECTS

Web Based Application, The University of Texas at Dallas

September 2018 – December 2018

- Collaborated with a team to build a user-friendly HTML screen editor for General Dynamics (HTML, CSS, JavaScript) allowing users to drag / drop various UI elements and save it to a JSON file, which exceeded our initial scope of requirements.

Operating Systems, The University of Texas at Dallas

Spring 2018

- Built a shell in C that can execute executables, pipelined commands, and specific built-in functions
- Ensured functionality through unit testing and regression testing

PERSONAL PROJECTS

Web Design

January 2019 – March 2019

- Developed an interactive website that works with a third-party API to send the user recipes upon request. Developed with HTML, CSS, JavaScript, jQuery, and low-fidelity wireframes.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

December 2020 – December 2023

AWS Certified Developer – Associate

May 2024 – May 2027

Microsoft Certified: Azure Fundamental

October 2023

Google Cloud Certified Cloud Digital Leader

December 2023 – December 2026

HashiCorp Certified: Terraform Associate (003)

July 2024 – July 2026
